Profile

DevOps Engineer with 3+ years of experience in AWS, Azure, infrastructure automation, CI/CD, and cloud security. Skilled in Terraform, Terragrunt, Docker, Linux administration, monitoring, and security hardening. Currently pursuing an M.sc. in Cyber Security, with a focus on devops, cloud security and DevSecOps roles.

Experience

Devops Engineer
Spark Tek IT Solutions
11/2025 – 03/2026 | Remote, India
- Managed AWS infrastructure for Toyota and Lexus across Production, UAT, and Development environments, ensuring high availability and scalability.
- Automated security monitoring and response using GuardDuty and CloudWatch, while optimizing WAF, load balancing, and infrastructure costs.

Devops Engineer
Udyat Technologies
11/2024 – 11/2025 | Remote, India
- Centralized logging, Grafana dashboards, and resource inventory across Toyota's AWS accounts to improve visibility and optimize cloud costs.
- Tested WAF spoofing protections using ModSecurity and implemented LEP controls to secure non-production environments.

Program Analyst Level -1 (Devops Engineer)
AppWrk IT Solutions
06/2024 – 10/2024 | Mohali, India
- Deployed and maintained Linux applications using Nginx and Apache, automating deployments to improve release efficiency and consistency.
- Hardened Linux servers in accordance with ISA security standards, strengthening system configurations and reducing security risks.

Devops Engineer
Udyat Technologies
03/2023 – 03/2024 | Mohali, India
- Automated AWS infrastructure provisioning using Terraform and Terragrunt, and streamlined CI/CD pipelines with AWS CodePipeline and GitHub Actions.
- Implemented cloud security and compliance controls using IAM least-privilege access, SOC 2, NIST, and CIS frameworks, leveraging AWS Inspector and GuardDuty for vulnerability and threat detection.
- Designed disaster recovery and backup strategies and used Docker for containerized deployments, improving infrastructure resilience and environment consistency.

Education

M.Sc. in Cyber Security
Hochschule der Bayerischen Wirtschaft (HDBW)
03/2026 – Present | Munich, Germany

B.Tech. in Mechanical Engineering
Himachal Pradesh Technical University
08/2017 – 08/2021 | Himachal Pradesh, India

Key Skills

Cloud: AWS, Microsoft Azure, Amazon ECS
DevOps & IaC: Terraform, Terragrunt, Docker, Kubernetes, Jenkins, GitHub Actions, AWS CodePipeline, Azure Pipelines
Monitoring: Grafana, OpenSearch, Prometheus, Centralized Logging
Security: IAM, GuardDuty, AWS Inspector, WAF, ISA, SOC 2, NIST, CIS
Scripting: Python, Shell/Bash
Collaboration: Agile/Scrum, Jira, Confluence, Technical Documentation, Clickup

Freelance IT Projects

Synkaa – app.synkaa.com
12/2025 – Present
Deployed containerized applications on Amazon ECS using Docker, configured ALB for high availability, and implemented automated frontend CI/CD deployments with AWS Amplify.

Restaurant Ordering Portal – startorder.sg
02/2026 – Present
Designed and managed AWS infrastructure using EC2, Application Load Balancer (ALB), and Route 53, implementing CI/CD with AWS CodeDeploy and application process management using Nginx and PM2.

TacoTica – tacotica.synkaa.com
07/2026 – Present
Deployed GDPR-compliant containerized infrastructure using Amazon ECS Fargate, configuring ALB for high availability, fault tolerance, and traffic distribution.

Academic Projects & Research

AI in Cloud Security Incident Response and Digital Forensics
Researched AI-driven approaches to cloud security incident response and digital forensic investigations.

Dual-Site Enterprise Network Design – GNS3
Designed a dual-site enterprise network featuring redundant core infrastructure, VLAN segmentation, and branch connectivity to improve network resilience and traffic isolation.
